

The Blackboard Collaborate Launcher Updates for Mac users

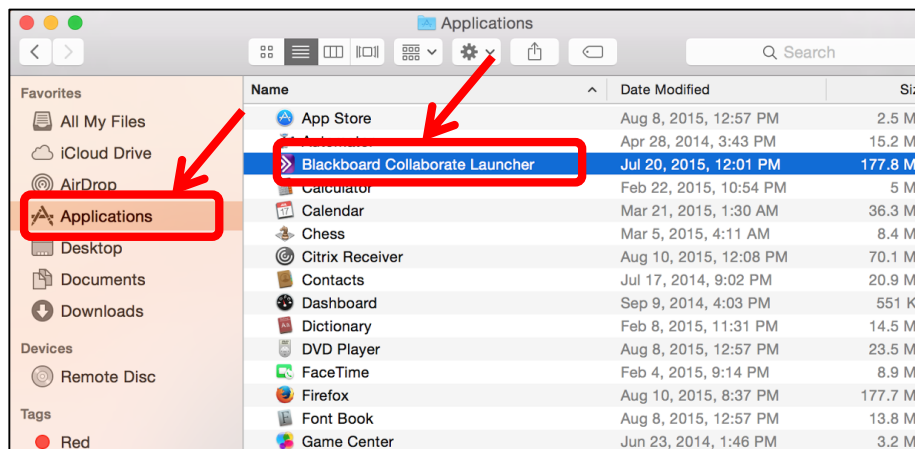

Note: This update only applies to MAC users who have previously used collaborate. If you are using collaborate for the first time, you will automatically download the newest version.

To update the Blackboard Collaborate Launcher:

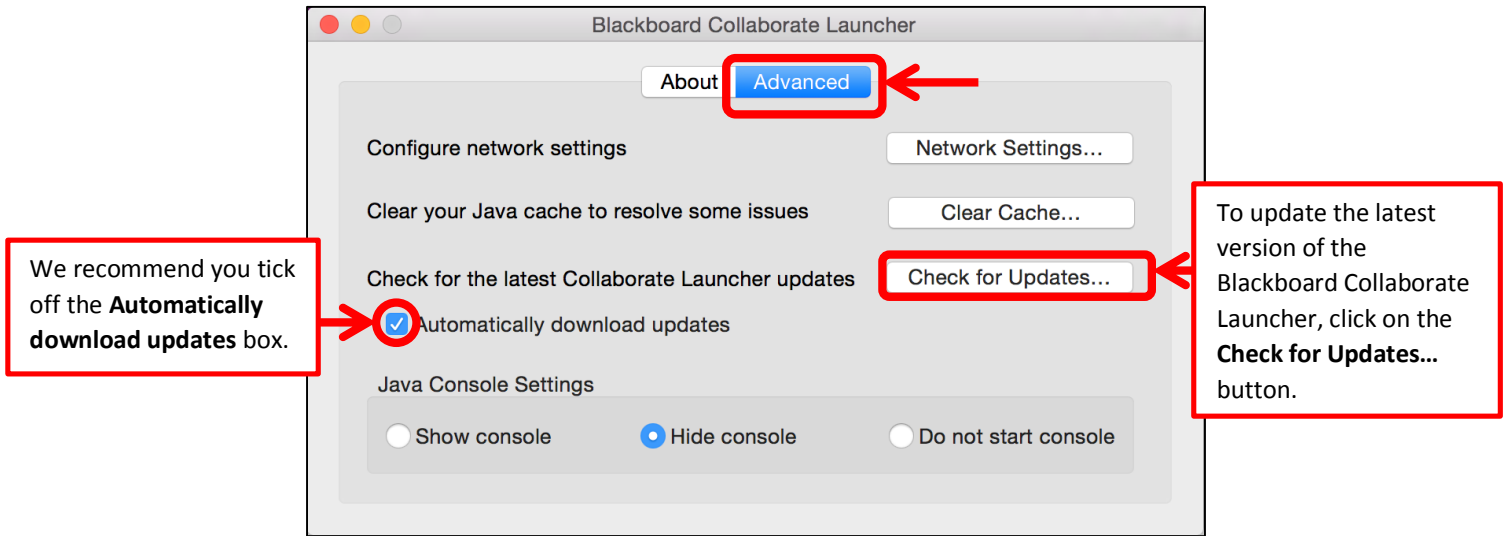

① Click on **Finder**.

② Click on **Applications**, then double click on **Blackboard Collaborate Launcher**.

③ Click on the **Advanced** button at the top of the Blackboard Collaborate Launcher control panel.

④ Close the Blackboard Collaborate Launcher control panel.
